O R D E R

On October 2, 1991, AT&T Communications of the South Central States, Inc. ("AT&T") filed a petition for reconsideration of the Commission's September 24, 1991 Order denying confidential treatment of certain information that had been filed by AT&T on August 14, 1991; August 20, 1991; and September 4, 1991. The Commission had granted confidential treatment to the costs and personnel data furnished in connection with dual party relay service except for the portion entitled, "Total Operating Expense."

In support of its petition for reconsideration, AT&T asserts that the Commission's September 24, 1991 Order is inconsistent with prior decisions in this proceeding. In an Order dated April 26, 1991, the Commission had mandated that public disclosure of certain information would result in competitive injury to AT&T and should be protected as confidential. The confidential information included categories entitled, "Total Operating Expense" and "Return on Investment." By that same Order, the Commission required public disclosure of information entitled,

"Total Cost of Service." AT&T believes that the inconsistency in the Orders may have arisen because it excluded the "Total Cost Of Service" category from the filings made on August 14, 1991; August 20, 1991; and September 4, 1991.

The Commission, having been otherwise sufficiently advised, HEREBY ORDERS that:

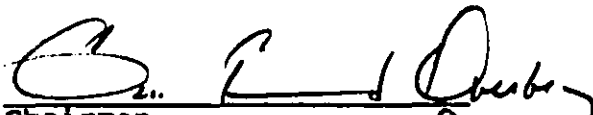

1. AT&T's petition for reconsideration of the September 24, 1991 Order is granted. The "Total Operating Expense" category of information shall be retained as confidential and not open for public disclosure.

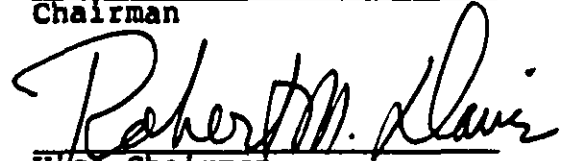

2. Within five days of the date of this Order, AT&T shall file an edited copy of this information with the confidential material obscured from inclusion in the public record, with copies to all parties of record.

3. AT&T shall provide a schedule of ongoing annual costs in a format filed on August 14, 1991, containing a category of "Total Cost of Service."

Done at Frankfort, Kentucky, this 21st day of October, 1991.
